

WHEREAS, Such study establishes that existing air quality standards can be met by changing the requirements for sulfur content in fuel;

NOW, THEREFORE, I, Brendan T. Byrne, Governor of the State of New Jersey, hereby order and direct the Commissioner of Environmental Protection to implement less stringent sulfur-in-fuel requirements for sources in Salem county and such other counties where studies demonstrate a similar potential consistent with the public health, safety and welfare. These standards shall be adopted on an interim basis, until the detailed implementation plan analyses for the New Jersey Intrastate Air Quality Control Region and the Metropolitan Philadelphia Air Quality Control Region, which are now underway, can be completed.
