SYNOPSIS
Reforms procedures concerning provision of affordable housing; abolishes
Council on Affordable Housing.

CURRENT VERSION OF TEXT
As amended by the Senate on March 22, 2010.
AN ACT concerning affordable housing, amending, supplementing
and repealing various parts of the statutory law.

BE IT ENACTED by the Senate and General Assembly of the State
of New Jersey:

1. (New section) The Legislature finds and declares that:
   a. In an attempt to comply with the requirements enumerated
      by the opinions in Mount Laurel I and II, and to provide
      municipalities a safe haven from exclusionary zoning litigation and
      the builder's remedy, the Legislature established the "Fair Housing
      Act," P.L.1985, c.222, (C.52:27D-301 et al.) which has required a
      complex system of administration that micromanages all types of
      development, including residential, market rate and affordable, and
      commercial, retail and industrial, through a determination of each
      region and municipality's affordable housing needs based on
      difficult to predict and fallible population and job growth
      projections.
   b. This complex system of regulation has resulted in scores of
      lawsuits and court decisions, and huge expenses to municipalities,
      the judiciary, and the State.
   c. The most effective way of complying with the Mount Laurel
      I and II decisions without wasting limited resources needed to fulfill
      government's many functions, including public safety, health care,
      and environmental protection, ensuring the affordability of mass
      transit, education, protection of civil rights, promotion of economic
      growth, and job creation, is to establish a simple, rather than
      complex, system that maximizes the ability of the free market to
      produce affordable housing for low and moderate income residents
      of the State.
   d. Municipalities that already have a healthy mix of affordable
      and market rate housing should not be encumbered with State
      zoning mandates that are needed to create an opportunity for an
      appropriate variety and choice of affordable and market rate
      housing in other municipalities where a reasonable variety of
      housing does not already exist.
   e. By requiring those municipalities not already having a
      reasonable mix of affordable and market rate housing to comply
      with zoning mandates as established hereunder, the State will
      maximize the opportunity for affordable housing in those
      municipalities without wasting limited resources necessary to
      provide for the other governmental functions stated herein, which
      only represent some, but not all, of government's responsibility to
      provide for the general welfare of its residents.

EXPLANATION – Matter enclosed in bold-faced brackets [thus] in the above bill is
not enacted and is intended to be omitted in the law.

Matter underlined thus is new matter.
Matter enclosed in superscript numerals has been adopted as follows:
1Senate floor amendments adopted March 22, 2010.
f. The simple, market-driven system established hereunder will enable the State to establish a housing policy that maximizes the production of affordable housing to serve the general welfare of all the State's residents.

2. (New section) The Council on Affordable Housing established by the “Fair Housing Act,” P.L.1985, c.222 (C.52:27D-301 et al.) is abolished, and all of its powers, functions, and duties that are not repealed herein are continued in the State Planning Commission established pursuant to section 2 of P.L.1985, c.398 (C.52:18A-197), except as herein otherwise provided. Whenever, in any law rule, regulation, order, contract, document, judicial or administrative proceeding, or otherwise, reference is made to the Council on Affordable Housing, the same shall mean and refer to the State Planning Commission. All appropriations and other moneys available, and to become available, to the Council on Affordable Housing are hereby continued in the commission, and shall be available for the objects and purposes for which such moneys are appropriated, subject to any terms, restriction, limitations, or other requirements imposed by State or federal law.

This transfer shall be subject to the provisions of the "State Agency Transfer Act,” P.L.1971, c.375 (C.52:14D-1 et seq.).

3. Section 4 of P.L.1985, c.398 (C.52:18A-199) is amended to read as follows:

4. The commission shall:
   a. Prepare and adopt within 36 months after the enactment of P.L.1985, c.398 (C.52:18A-196 et al.), and revise and readopt at least every [three] six years thereafter, the State Development and Redevelopment Plan, which shall provide a coordinated, integrated and comprehensive plan for the growth, development, renewal and conservation of the State and its regions and which shall identify areas for growth, agriculture, open space conservation and other appropriate designations;
   b. Prepare and adopt as part of the plan a long-term Infrastructure Needs Assessment, which shall provide information on present and prospective conditions, needs and costs with regard to State, county and municipal capital facilities, including water, sewerage, transportation, solid waste, drainage, flood protection, shore protection and related capital facilities;
   c. Develop and promote procedures to facilitate cooperation and coordination among State agencies, regional entities, and local governments with regard to the development of plans, programs and policies which affect land use, environmental, capital and economic development issues;
   d. Provide technical assistance to local governments and regional entities in order to encourage the use of the most effective
and efficient planning and development review data, tools and procedures;
e. Periodically review State, regional, and local government planning procedures and relationships and recommend to the Governor and the Legislature administrative or legislative action to promote a more efficient and effective planning process;
f. Review any bill introduced in either house of the Legislature which appropriates funds for a capital project and may study the necessity, desirability and relative priority of the appropriation by reference to the State Development and Redevelopment Plan, and may make recommendations to the Legislature and to the Governor concerning the bill; [and]
g. Take all actions necessary and proper to carry out the provisions of P.L.1985, c.398 (C.52:18A-196 et al.); and
h. Assume the duties of the Council on Affordable Housing that are not repealed by P.L., c. (pending before the Legislature as this bill) and are transferred to the commission pursuant to section 2 of P.L., c. (C.) and section 18 of P.L., c. (C.) (pending before the Legislature as this bill).
(cf: P.L.2004, c.120, s.64)
4. Section 2 of P.L.1985, c.222 (C.52:27D-302) is amended to read as follows:
2. The Legislature finds that:
   a. The New Jersey Supreme Court, through its rulings in South Burlington County NAACP v. Mount Laurel, 67 N.J. 151 (1975) and South Burlington County NAACP v. Mount Laurel, 92 N.J. 158 (1983), has determined that every municipality in a growth area has a constitutional obligation to provide through its land use regulations a realistic opportunity for a fair share of its region's present and prospective needs for housing for low and moderate income families.
   b. In the second Mount Laurel ruling, the Supreme Court stated that the determination of the methods for satisfying this constitutional obligation "is better left to the Legislature," that the court has "always preferred legislative to judicial action in their field," and that the judicial role in upholding the Mount Laurel doctrine "could decrease as a result of legislative and executive action." The "Fair Housing Act," as administered by the Council on Affordable Housing, increased, rather than decreased, the judicial role and added the expense of bureaucratic paper and process at both the State and local level.
   c. The interest of all citizens, including low and moderate income families in need of affordable housing, and the needs of the workforce, would be best served by a comprehensive planning and implementation response to this constitutional obligation.] (Deleted
There are a number of essential ingredients to a comprehensive planning and implementation response, including the establishment of reasonable fair share housing guidelines and standards, the initial determination of fair share by officials at the municipal level and the preparation of a municipal housing element, State review of the local fair share study and housing element, and continuous State funding for low and moderate income housing to replace the federal housing subsidy programs which have been almost completely eliminated.

The State can maximize the number of low and moderate income units provided in New Jersey by allowing its municipalities to adopt appropriate phasing schedules for meeting their fair share, so long as the municipalities permit a timely achievement of an appropriate fair share of the regional need for low and moderate income housing as required by the Mt. Laurel I and II opinions and other relevant court decisions.

The State can also maximize the number of low and moderate income units by creating new affordable housing and by rehabilitating existing, but substandard, housing in the State. Because the Legislature has determined, pursuant to P.L.2008, c.46 (C.52:27D-329.1 et al.), that it is no longer appropriate or in harmony with the Mount Laurel doctrine to permit the transfer of the fair share obligations among municipalities within a housing region, it is necessary and appropriate to create a new program to create new affordable housing and to foster the rehabilitation of existing, but substandard, housing.

Since the urban areas are vitally important to the State, construction, conversion and rehabilitation of housing in our urban centers should be encouraged. However, the provision of housing in urban areas must be balanced with the need to provide housing throughout the State for the free mobility of citizens.

The Supreme Court of New Jersey in its Mount Laurel decisions demands that municipal land use regulations affirmatively afford a reasonable opportunity for a variety and choice of housing including low and moderate cost housing, to meet the needs of people desiring to live there. While provision for the actual construction of that housing by municipalities is not required, they are encouraged but not mandated to expend their own resources to help provide low and moderate income housing.

Certain amendments to the enabling act of the Council on Affordable Housing are necessary to provide guidance to the council to ensure consistency with the legislative intent, while at the same time clarifying the limitations of the council in its rulemaking.
Although the court has remarked in several decisions that the Legislature has granted the council considerable deference in its rulemaking, the Legislature retains its power and obligation to clarify and amend the enabling act from which the council derives its rulemaking power, from time to time, in order to better guide the council. (Deleted by amendment, P.L. , c. ) (pending before the Legislature as this bill)

The Legislature finds that the use of regional contribution agreements, which permits municipalities to transfer a certain portion of their fair share housing obligation outside of the municipal borders, should no longer be utilized after December 31, 2011 as a mechanism for the creation of affordable housing [by the council].

housing element shall contain an analysis demonstrating that it will provide such a realistic opportunity, and the municipality shall establish that its land use and other relevant ordinances have been revised to incorporate the provisions for low and moderate income housing. In preparing the housing element, the municipality shall consider the following techniques for providing low and moderate income housing within the municipality, as well as such other techniques as may be published by the council or proposed by the municipality:

(C. ) (pending before the Legislature as this bill) for adaptability, as part of the monitoring which occurs pursuant to P.L.1985, c.222 (C.52:27D-301 et al.). [If any units for which credit was granted in accordance with the provisions of P.L.2005, c.350 (C.52:27D-311a et al.) are found not to conform to the requirements of P.L.2005, c.350 (C.52:27D-311a et al.), the council may require the municipality to amend its fair share plan within 90 days of receiving notice from the council, to address its fair share obligation pursuant to P.L.1985, c.222 (C.52:27D-301 et al.). In the event that the municipality fails to amend its fair share plan within 90 days of receiving such notice, the council may revoke substantive certification.]

12. Section 12 of P.L.1985, c.222 (C.52:27D-312) is amended to read as follows:

12. a. Except as prohibited under P.L.2008, c.46 (C.52:27D-329.1 et al.), a municipality may propose the transfer of up to 50% of its fair share to another municipality within its housing region by means of a contractual agreement into which two municipalities voluntarily enter. A municipality may also propose a transfer by contracting with the agency or another governmental entity designated by the council if the council determines that the municipality has exhausted all possibilities within its housing region. A municipality proposing to transfer to another municipality, whether directly or by means of a contract with the agency or another governmental entity designated by the council, shall provide the council with the housing element and statement
required under subsection c. of section 11 of P.L.1985, c.222 (C.52:27D-311), and shall request the council to determine a match with a municipality filing a statement of intent pursuant to subsection e. of this section. Except as provided in subsection b. of this section, the agreement may be entered into upon obtaining substantive certification under section 14 of P.L.1985, c.222 (C.52:27D-314), or anytime thereafter. The regional contribution agreement entered into shall specify how the housing shall be provided by the second municipality, hereinafter the receiving municipality, and the amount of contributions to be made by the first municipality, hereinafter the sending municipality.

b. A municipality which is a defendant in an exclusionary zoning suit and which has not obtained substantive certification pursuant to P.L.1985, c.222 may request the court to be permitted to fulfill a portion of its fair share by entering into a regional contribution agreement. If the court believes the request to be reasonable, the court shall request the council to review the proposed agreement and to determine a match with a receiving municipality or municipalities pursuant to this section. The court may establish time limitations for the council’s review, and shall retain jurisdiction over the matter during the period of council review. If the court determines that the agreement provides a realistic opportunity for the provision of low and moderate income housing within the housing region, it shall provide the sending municipality a credit against its fair share for housing to be provided through the agreement in the manner provided in this section. The agreement shall be entered into prior to the entry of a final judgment in the litigation. In cases in which a final judgment was entered prior to the date P.L.1985, c.222 takes effect and in which an appeal is pending, a municipality may request consideration of a regional contribution agreement; provided that it is entered into within 120 days after P.L.1985, c.222 takes effect. In a case in which a final judgment has been entered, the court shall consider whether or not the agreement constitutes an expeditious means of providing part of the fair share. [Notwithstanding this subsection, no consideration shall be given to any regional contribution agreement of which the council did not complete its review and formally approve a recommendation to the court prior to the effective date of P.L.2008, c.46 (C.52:27D-329.1 et al.).]

c. [Except as prohibited under P.L.2008, c.46 (C.52:27D-329.1 et al.), regional contribution agreements shall be approved by the council, after review by the county planning board or agency of the county in which the receiving municipality is located. The council shall determine whether or not the agreement provides a realistic opportunity for the provision of low and moderate income housing within convenient access to employment opportunities. The council shall refer the agreement to the county planning board or agency...]

which shall review whether or not the transfer agreement is in accordance with sound, comprehensive regional planning. In its review, the county planning board or agency shall consider the master plan and zoning ordinance of the sending and receiving municipalities, its own county master plan, and the State development and redevelopment plan. In the event that there is no county planning board or agency in the county in which the receiving municipality is located, the council shall also determine whether or not the agreement is in accordance with sound, comprehensive regional planning. After it has been determined that the agreement provides a realistic opportunity for low and moderate income housing within convenient access to employment opportunities, and that the agreement is consistent with sound, comprehensive regional planning, the council shall approve the regional contribution agreement by resolution. All determinations of a county planning board or agency shall be in writing and shall be made within such time limits as the council may prescribe, beyond which the council shall make those determinations and no fee shall be paid to the county planning board or agency pursuant to this subsection. [Deleted by amendment, P.L. , c. ] (pending before the Legislature as this bill)

d. In approving a regional contribution agreement, the council shall set forth in its resolution a schedule of the contributions to be appropriated annually by the sending municipality. A copy of the adopted resolution shall be filed promptly with the Director of the Division of Local Government Services in the Department of Community Affairs, and the director shall thereafter not approve an annual budget of a sending municipality if it does not include appropriations necessary to meet the terms of the resolution. Amounts appropriated by a sending municipality for a regional contribution agreement pursuant to this section are exempt from the limitations or increases in final appropriations imposed under P.L.1976, c.68 (C.40A:4-45.1 et seq.).

e. The council shall maintain current lists of municipalities which have stated an intent to enter into regional contribution agreements as receiving municipalities, and shall establish procedures for filing statements of intent with the council. No receiving municipality shall be required to accept a greater number of low and moderate income units through an agreement than it has expressed a willingness to accept in its statement, but the number stated shall not be less than a reasonable minimum number of units, not to exceed 100, as established by the council. The council shall require a project plan from a receiving municipality prior to the entering into of the agreement, and shall submit the project plan to the agency for its review as to the feasibility of the plan prior to the council's approval of the agreement. The agency may recommend and the council may approve as part of the project plan a provision
that the time limitations for contractual guarantees or resale controls
for low and moderate income units included in the project shall be
less than 30 years, if it is determined that modification is necessary
to assure the economic viability of the project.

f. The council shall establish guidelines for the duration and
amount of contributions in regional contribution agreements. In
doing so, the council shall give substantial consideration to the
average of: (1) the median amount required to rehabilitate a low and
moderate income unit up to code enforcement standards; (2) the
average internal subsidization required for a developer to provide a
low income housing unit in an inclusionary development; (3) the
average internal subsidization required for a developer to provide a
moderate income housing unit in an inclusionary development.
Contributions may be prorated in municipal appropriations
occurring over a period not to exceed ten years and may include an
amount agreed upon to compensate or partially compensate the
receiving municipality for infrastructure or other costs generated to
the receiving municipality by the development. Appropriations
shall be made and paid directly to the receiving municipality or
municipalities or to the agency or other governmental entity
designated by the council, as the case may be.

g. The council shall require receiving municipalities to file
annual reports with the agency setting forth the progress in
implementing a project funded under a regional contribution
agreement, and the agency shall provide the council with its
evaluation of each report. The council shall take such actions as
may be necessary to enforce a regional contribution agreement with
respect to the timely implementation of the project by the receiving
municipality.

[No] Except as otherwise provided in this section, no
consideration shall be given to any regional contribution agreement
for which the council did not complete its review and grant
approval prior to the effective date of P.L.2008, c.46 (C. 52:27D-
329.1 et al.).

h. (1) Notwithstanding any law, rule or regulation to the
contrary, the State Planning Commission shall, prior to or on
December 31, 2011, review and either grant approval to or
disapprove any regional contribution agreement when the sending
municipality, prior to July 17, 2008, by resolution, authorized the
execution of a regional contribution agreement and the resolution
identifies either a proposed number of units to be credited to the
sending municipality or the dollar value of the total transfer
amount.

(2) When reviewing a regional contribution agreement pursuant
to this subsection, the State Planning Commission may apply the
regulations of the Council on Affordable Housing in effect at the
time the agreement was entered into, or may revise and adopt
regulations concerning regional contribution agreements in order to
effectuate the requirements and policy of P.L. , c. (C. )
(pending before the Legislature as this bill).

(3) The commission shall record specific, judicially reviewable
findings of fact concerning any action taken by the commission
concerning the proposed regional contribution agreement.

(4) All projects funded by a regional contribution agreement and
located in a receiving municipality shall obtain either a preliminary
approval, pursuant to section 34 of P.L.1975, c.291 (C.40:55D-46)
or approval of a general development plan pursuant to section 5 of
41 P.L.1987, c.129 (C.40:55D-45.3) within four years of approval
by the commission pursuant to paragraph (1) of this subsection. If
the project does not receive a preliminary approval or approval of a
general development plan within the time period provided in this
paragraph, the receiving municipality shall be required to transfer
the remaining unspent balance of amounts transferred pursuant to
the regional contribution agreement to the "Affordable Housing
Trust Fund," established pursuant to section 20 of P.L.1985, c.222
(C.52:27D-320).

14. Section 12 of P.L.2008, c.46 (C.52:27D-329.6) is amended to read as follows:

12. The Legislature finds and declares that:

a. The transfer of a portion of the fair share obligations among municipalities has proven to not be a viable method of ensuring that an adequate supply and variety of housing choices are provided in municipalities experiencing growth. Therefore, the use of a regional contribution agreement shall no longer be permitted under P.L.1985, c.222 (C.52:27D-301 et al.), except as permitted pursuant to subsection h. of section 12 of P.L.1985, c.222 (C.52:27D-312).

b. Although the elimination of the regional contribution agreement as a tool for the production of affordable housing pursuant to P.L.1985, c.222 (C.52:27D-301 et al.), will impact on some proposed agreements awaiting approval it is for a public purpose and for the public good that such contracts be declared void for the current and future housing obligation rounds. [Deleted by amendment, P.L. , c. ] (pending before the Legislature as this bill)

c. There is a need to assist municipalities in the rehabilitation of housing for occupancy by low and moderate income households. To this end, a specific program for housing rehabilitation by municipalities would best serve this need. It is the intent of the Legislature that this program, as well as funds earmarked for the purposes of the program, will be utilized, especially in urban areas which were the main recipients of regional contribution agreements, to continue to upgrade housing stock in order to provide a wide variety and choice of housing for persons living in those areas.

d. There is also a need to provide funding to municipalities to create additional incentives and assistance for the production of safe, decent, and affordable rental and other housing.

(cf: P.L.2008, c.46, s.12)

15. Section 18 of P.L.2008, c.46 (C.52:27D-329.9) is amended to read as follows:

18. a. Notwithstanding any rules of the council to the contrary, for developments consisting of newly-constructed residential units located, or to be located, within the jurisdiction of any regional planning entity required to adopt a master plan or comprehensive management plan pursuant to statutory law, including the New Jersey Meadowlands Commission pursuant to subsection (i) of section 6 of P.L.1968, c.404 (C.13:17-6), the Pinelands Commission pursuant to section 7 of the "Pinelands Protection Act," P.L.1979, c.111 (C.13:18A-8), the Fort Monmouth Economic Revitalization
Planning Authority pursuant to section 5 of P.L.2006, c.16 (C.52:271-5), or its successor, and the Highlands Water Protection and Planning Council pursuant to section 11 of P.L.2004, c.120 (C.13:20-11), but excluding joint planning boards formed pursuant to section 64 of P.L.1975, c.291 (C.40:55D-77), there shall be required to be reserved for occupancy by low or moderate income households at least 20 percent of the residential units constructed, to the extent this is economically feasible. [Deleted by amendment, P.L. , c. ] (pending before the Legislature as this bill)

b. A developer of a project consisting of newly-constructed residential units being financed in whole or in part with State funds, including, but not limited to, transit villages designated by the Department of Transportation, units constructed on State-owned property, and urban transit hubs as defined pursuant to section 2 of P.L.2007, c.346 (C.34:1B-208), shall be required to reserve at least 20 percent of the residential units constructed for occupancy by low or moderate income households, as those terms are defined in section 4 of P.L.1985, c.222 (C.52:27D-304), with affordability controls as required under the rules of the [council] commission, unless the municipality in which the property is located has received [substantive certification from the council and such a reservation is not required under the approved affordable housing plan, or the municipality has been given] a judgment of repose or a judgment of compliance by the court, and such a reservation is not required under the approved affordable housing plan.

c. (1) The Legislature recognizes that regional planning entities are appropriately positioned to take a broader role in the planning and provision of affordable housing based on regional planning considerations. In recognition of the value of sound regional planning, including the desire to foster economic growth, create a variety and choice of housing near public transportation, protect critical environmental resources, including farmland and open space preservation, and maximize the use of existing infrastructure, there is created a new program to foster regional planning entities.

(2) The regional planning entities identified in subsection a. of this section shall identify and coordinate regional affordable housing opportunities in cooperation with municipalities in areas with convenient access to infrastructure, employment opportunities, and public transportation. Coordination of affordable housing opportunities may include methods to regionally provide housing in line with regional concerns, such as transit needs or opportunities, environmental concerns, or such other factors as the council may permit; provided, however, that such provision by such a regional entity may not result in more than a 50 percent change in the fair share obligation of any municipality; provided that this limitation shall not apply to affordable housing units directly attributable to
development by the New Jersey Sports and Exposition Authority
within the New Jersey Meadowlands District.

(3) In addition to the entities identified in subsection a. of this
section, the Casino Reinvestment Development Authority, in
conjunction with the Atlantic County Planning Board, shall identify
and coordinate regional affordable housing opportunities directly
attributable to Atlantic City casino development, which may be
provided anywhere within Atlantic County, subject to the
restrictions of paragraph (4) of this subsection.

(4) The coordination of affordable housing opportunities by
regional entities as identified in this section shall not include
activities which would provide housing units to be located in those
municipalities that are eligible to receive aid under the "Special
Municipal Aid Act," P.L.1987, c.75 (C.52:27D-118.24 et seq.), or
are coextensive with a school district which qualified for
designation as a "special needs district" pursuant to the "Quality
any time in the last 10 years has been qualified to receive assistance
under P.L.1978, c.14 (C.52:27D-178 et seq.) and that fall within the
jurisdiction of any of the regional entities specified in subsection a.
of this section.] (Deleted by amendment, P.L.____, c.____) (pending
before the Legislature as this bill)

If an odd number of affordable units is being constructed, rehabilitated or developed pursuant to this section, the higher number of units may be determined by the municipality.

22. (New section) A municipality shall authorize any person engaging in a residential 'or small residential' development
project to satisfy the set-aside requirements imposed by section 21 of P.L. , c. (C. ) (pending before the Legislature as this bill) through any combination of the following alternate means:

A. The commission shall determine where there is available State surplus real property in municipalities not determined to be inclusionary pursuant to section 20 of P.L. , c. (C. ) (pending before the Legislature as this bill), and shall study the potential of this property, including an estimate of the affordable units that could be developed on the property. The commission shall, within 180 days of the date of enactment of P.L. , c. (C. ) (pending before the Legislature as this bill), complete the determination and study and transmit them to the Legislature.

25. (New section) a. In any municipality not determined to be an inclusionary municipality by the commission as described in section 20 of P.L. , c. (C. ) (pending before the Legislature as this bill), when a proposed residential development project that includes at least one affordable housing unit requires approval pursuant to the "Municipal Land Use Law," P.L.1975, c.291 (C.40:55D-1 et seq.) of a subdivision, site plan or conditional use, or a variance, including a variance pursuant to subsection d. of section 57 of P.L.1975, c.291 (C.40:55D-70), the planning board shall review the request for a subdivision, site plan or conditional use, or a variance, and the development including an affordable housing unit shall be deemed to be an inherently beneficial use, and the developer shall be required to make only a showing that the
variance or other relief can be granted without substantial detriment to the public good.

b. The provisions of this section shall not apply to areas in a municipality that are not located in a sewer-service area and for which sewer-service cannot be reasonably extended from a nearby approved sewer-service area.

c. The provisions of this section shall not apply to a municipality that has adopted an ordinance that reserves, for use as an inclusionary development as defined in subsection f. of section 4 of P.L.1985, c.222 (C.52:27D-304), at least one-fifth of its vacant, developable property having reasonable access to sewer service, for residential use.

26. (New section) a. The developer of a residential development project, as defined in subsection t. of section 4 of P.L.1985, c.222 (C.52:27D-304), may apply to the New Jersey Housing and Mortgage Finance Agency, established pursuant to section 4 of P.L.1983, c.530 (C.55:14K-4), for an adjustment to the affordable housing set-aside required by subsection a. of section 21 of P.L. , c. (C. ) (pending before the Legislature as this bill) if it is believed that a project will not be economically feasible if required to comply with the requirements of section 21 of P.L. , c. (C. ) (pending before the Legislature as this bill), despite the municipality taking all reasonable actions to make the development economically feasible. Following an adjustment pursuant to this section, no less than 10 percent of the housing units in residential development project shall be occupied by, or reserved for occupancy by, low or moderate income occupants.

b. The application for an adjustment shall contain a pro forma that includes details of the project plan and financial analysis, including the yield required for financing and to secure a mortgage, and an analysis of the burden of applicable development regulations and ordinances' effect on the project’s financial viability.

c. The agency shall have 90 days to review the application for an adjustment to a project's set aside and shall provide, in writing, a determination containing an evaluation. The agency shall consider the financing received by the residential development project, including loans, grants, or other financial aid administered by the department, including programs administered by the agency, any assistance received from the New Jersey Affordable Housing Trust Fund established pursuant to section 20 of P.L.1985, c.222 (C.52:27D-320) or a municipal trust fund established pursuant to section 29 of P.L. , c. (C. ) (pending before the Legislature as this bill), and any other source of financial assistance, including by not limited to assistance received from any other instrumentality of the State or the United States government. The agency may consult with any other State agency when conducting its evaluation,
including the State Planning Commission. The department
determination shall include a suggested adjustment to the set-aside
for low income or moderate income housing.
d. The agency shall transmit its determination, including any
adjustment, to the municipality’s board of adjustment and planning
board of the municipality, which shall grant relief necessary to
implement the adjustment to the development’s set-aside.
e. After the agency issues a determination or recommends an
adjustment, any party may appeal the matter to the Superior Court.
f. The agency, in consultation with the State Planning
Commission, and in accordance with the "Administrative Procedure
Act," P.L.1968, c.410 (C.52:14B-1 et seq.), adopt rules and
regulations to implement the provisions of this section.¹

(26.) ²²

[a. In July 2008, the New Jersey Legislature enacted a law
imposing a fee on non-residential development to encourage the
production of opportunities for affordable housing for low- and
moderate-income New Jersey residents.
b. Since the adoption of this policy, the State and our nation
have been engulfed in an economic recession that has resulted in
substantial increases in unemployment, including an unemployment
rate of more than nine percent, and substantial decreases in revenue
to the State treasury.
c. Revenues actually collected pursuant to the "Statewide Non-
Residential Development Fee Act," sections 32 through 38 of
of the amounts anticipated before the "New Jersey Economic
suspended implementation of the Statewide non-residential
development fee.
d. It is undisputable that the charging of fees at high levels
dissuades commerce from locating within a State or municipality or
locality, increases unemployment, and deters non-residential and
residential development, and these ill effects impede the implicit
constitutional requirement that government action provide for the
general welfare of the State's citizens.
e. Continued imposition of the development fee will hamper
the State's ability to recover from the economic recession, slowing
job creation and development that normally are a source of revenue,
increasing the revenue shortfall in the State's budget, further
hampering the State's ability to provide for the general welfare
needs of its residents, including, but not limited to, funding
programs for the developmentally disabled, health care services for
senior citizens and indigent families, financial support for special
education services within local school districts, funding for State
institutions for the mentally ill, and general financial support for municipal governments and local school districts.

f. The negative impact of a State policy that relies on a municipal fee structure and of State programs that require a municipality to impose fees and charges on developers must be balanced against any public good expected from such regulation.

g. It is essential to the public good to repeal the fee imposed under the "Statewide Non-Residential Development Fee Act," sections 32 through 38 of P.L.2008, c.46 (C.40:55D-8.1 through C.40:55D-8.7).

27. Notwithstanding any law, rule, or regulation to the contrary, no municipality shall adopt an ordinance imposing a fee upon the developer of non-residential property or construction to provide for affordable housing.

b. Any provision of a local ordinance which imposes a fee for the development of affordable housing upon a developer of non-residential property, including any and all development fee ordinances adopted in accordance with any regulations of the Council on Affordable Housing, or any provision of an ordinance which imposes an obligation relating to the provision of housing affordable to low and moderate income households, or payment in lieu of construction as a condition of non-residential development, shall be void and of no effect.

c. The provisions of this section shall not apply to a financial or other contribution that a developer made or committed itself to make for a non-residential property that received preliminary site plan approval, pursuant to section 34 of P.L.1975, c.291 (C.40:55D-46), or final approval, pursuant to section 38 of P.L.1975, c.291 (C.40:55D-50) prior to July 17, 2008, or for a non-residential project that, prior to July 17, 2008, was referred to a planning board by the State, a governing body, or other public agency for review pursuant to section 22 of P.L.1975, c.291 (C.40:55D-31).

d. The provisions of this section shall not apply to a financial or other contribution, including the investment obligations made pursuant to P.L.1977, c.110 (C.5:12-1 et seq.), that a developer of a non-residential development regulated under P.L.1977, c.110 (C.5:12-1 et seq.) has made or committed itself to make relating to the provision of housing affordable to low, moderate, or middle-income households.

28. (New section) a. A municipality may impose and collect payments in lieu of construction of affordable housing in residential development projects, as permitted in section 21 of P.L. , c. (C. ) (pending before the Legislature as this bill) pursuant to guidelines promulgated by the State Planning Commission.
b. A municipality shall deposit all payments collected into a trust fund dedicated to those purposes as required under this section. Each amount collected shall be deposited and shall be accounted for separately, by payer and date of deposit.

c. (1) A municipality may only spend payments in lieu of construction for an activity to address the municipality's obligation to provide its portion of the region's need for affordable housing.

(2) Municipal payment trust funds shall not be expended to reimburse municipalities for activities which occurred prior to the authorization of a municipality to collect payments in lieu of construction.

(3) A municipality shall set aside a portion of its payment-in-lieu fee trust fund for the purpose of providing affordability assistance to low and moderate income households in affordable units located in the municipality.

(a) Affordability assistance programs may include, but are not limited to, down payment assistance, security deposit assistance, low interest loans, common maintenance expenses for units located in condominiums, and rental assistance.

(b) Affordability assistance to households earning 30 percent or less of median income may include buying down the cost of low income units in a municipality to make them affordable to households earning 30 percent or less of median income.

(4) A municipality may contract with a private or public entity to administer any program facilitating housing affordable to low and moderate income households including the requirement for affordability assistance, or any program or activity for which the municipality expends payment-in-lieu proceeds.

(5) Not more than 20 percent of the revenues collected from payments in lieu of construction shall be expended on administration, in accordance with rules of the commission.

d. Notwithstanding any provision of this section, or regulations of the commission, a municipality shall not collect a payment-in-lieu fee from a developer whenever that developer is providing for the construction of all of the affordable units required pursuant to section 21 of P.L. , c. (C. ) (pending before the Legislature as this bill), either on-site or elsewhere within the municipality.

e. All payment-in-lieu fees collected and deposited in the trust fund shall be committed for expenditure within four years from the date of collection. A municipality that fails to commit to expend the balance required in the payment in lieu trust fund by the time set forth in this subsection shall be required by the commission to transfer the remaining unspent balance at the end of the four-year period to the "New Jersey Affordable Housing Trust Fund," established pursuant to section 20 of P.L.1985, c.222 (C.52:27D-320), to be used in the housing region of the transferring municipality for the authorized purposes of that fund.
(New section) If any persons benefitting from a housing program established pursuant to P.L. , c. (C. ) (pending before the Legislature as this bill) that assists persons who have experienced, or may experience, the foreclosure and loss of their personal residence, or addresses the needs of low and moderate income households residing within the municipality, are otherwise income qualified to occupy such housing under federal or State law, then any affirmative marketing requirements contained in regulations promulgated to effectuate the program shall be waived to permit the persons to occupy, rent, or purchase new or rehabilitated affordable housing units that they may have previously occupied or owned.

A municipality shall not be liable for any unmet housing obligation based on regulations promulgated by the Council on Affordable Housing pursuant to the "Fair Housing Act," P.L.1985, c.222 (C.52:27D-301 et al.), or any law or fact in a time period prior to the effective date of P.L. , c. (C. ) (pending before the Legislature as this bill).

Notwithstanding subsection a. of this section, a municipality shall not alter the zoning classification of any inclusionary development site that is included in a municipality's master plan as an inclusionary development site, or which has received any local, county, or State land use or environmental permit or approval, and is, by judgment of repose, court order, or settlement in exclusionary zoning litigation, designated or reserved for purposes of satisfying a municipality's fair share of the region's housing opportunities."

Section 47 of P.L.1975, c.291 (C.40:55D-60) is amended to read as follows:

47. Whenever the proposed development requires approval pursuant to this act of a subdivision, site plan or conditional use, but not a variance pursuant to subsection d. of section 57 of this act (C. 40:55D-70), the planning board shall have the power to grant to
the same extent and subject to the same restrictions as the board of adjustment:

- Variances pursuant to subsection 57 c. of this act;
- Direction pursuant to section 25 of this act for issuance of a permit for a building or structure in the bed of a mapped street or public drainage way, flood control basin or public area reserved pursuant to section 23 of this act; and
- Direction pursuant to section 27 of this act for issuance of a permit for a building or structure not related to a street.

Whenever relief is requested pursuant to this section, notice of the hearing on the application for development shall include reference to the request for a variance or direction for issuance of a permit, as the case may be.

The developer may elect to submit a separate application requesting approval of the variance or direction of the issuance of a permit and a subsequent application for any required approval of a subdivision, site plan or conditional use. The separate approval of the variance or direction of the issuance of a permit shall be conditioned upon grant of all required subsequent approvals by the planning board. No such subsequent approval shall be granted unless the approval can be granted without substantial detriment to the public good and without substantial impairment of the intent and purpose of the zone plan and zoning ordinance.

If, pursuant to section 25 of P.L. , c. (C. ) (pending before the Legislature as this bill), a proposed development containing one or more affordable housing units requires approval to subsection d. of section 57 of P.L.1975, c.291 (C.40:55D-70), the planning board shall have the authority to review the request for relief.

Section 57 of P.L.1975, c.291 (C.40:55D-70) is amended to read as follows:

57. Powers. The board of adjustment shall have the power to:

- Hear and decide appeals where it is alleged by the appellant that there is error in any order, requirement, decision or refusal made by an administrative officer based on or made in the enforcement of the zoning ordinance;
- Hear and decide requests for interpretation of the zoning map or ordinance or for decisions upon other special questions upon which such board is authorized to pass by any zoning or official map ordinance, in accordance with this act;
- (1) Where: (a) by reason of exceptional narrowness, shallowness or shape of a specific piece of property, or (b) by reason of exceptional topographic conditions or physical features uniquely affecting a specific piece of property, or (c) by reason of an extraordinary and exceptional situation uniquely affecting a specific piece of property or the structures lawfully existing
thereon, the strict application of any regulation pursuant to article 8 of [this act] P.L.1975, c.291 would result in peculiar and
exceptional practical difficulties to, or exceptional and undue hardship upon, the developer of such property, grant, upon an
application or an appeal relating to such property, a variance from such strict application of such regulation so as to relieve such
difficulties or hardship; (2) where in an application or appeal relating to a specific piece of property the purposes of this act or the purposes of the "Educational Facilities Construction and Financing Act," P.L.2000, c.72 (C.18A:7G-1 et al.), would be advanced by a deviation from the zoning ordinance requirements and the benefits of the deviation would substantially outweigh any detriment, grant a variance to allow departure from regulations pursuant to article 8 of [this act] P.L.1975, c.291; provided, however, that the fact that a proposed use is an inherently beneficial use shall not be dispositive of a decision on a variance under this subsection and provided that no variance from those departures enumerated in subsection d. of this section shall be granted under this subsection; and provided further that the proposed development does not require approval by the planning board of a subdivision, site plan or conditional use, in conjunction with which the planning board has power to review a request for a variance pursuant to subsection a. of section 47 of [this act] P.L.1975, c.291; and
d. In particular cases for special reasons, grant a variance to allow departure from regulations pursuant to article 8 of [this act] P.L.1975, c.291 to permit:
(1) a use or principal structure in a district restricted against such use or principal structure [ ];
(2) an expansion of a nonconforming use [ ];
(3) deviation from a specification or standard pursuant to section 54 of P.L.1975, c.291 (C.40:55D-67) pertaining solely to a conditional use [ ];
(4) an increase in the permitted floor area ratio as defined in section 3.1 of P.L.1975, c.291 (C.40:55D-4) [ ];
(5) an increase in the permitted density as defined in section 3.1 of P.L.1975, c.291 (C.40:55D-4), except as applied to the required lot area for a lot or lots for detached one or two dwelling unit buildings, which lot or lots are either an isolated undersized lot or lots resulting from a minor subdivision; or
(6) a height of a principal structure which exceeds by 10 feet or 10% the maximum height permitted in the district for a principal structure. A variance under this subsection shall be granted only by affirmative vote of at least five members, in the case of a municipal board, or two-thirds of the full authorized membership, in the case of a regional board, pursuant to article 10 of [this act] P.L.1975, c.291.
If an application development requests one or more variances but not a variance for a purpose enumerated in subsection d. of this section, the decision on the requested variance or variances shall be rendered under subsection c. of this section.

No variance or other relief may be granted under the terms of this section, including a variance or other relief involving an inherently beneficial use, without a showing that such variance or other relief can be granted without substantial detriment to the public good and will not substantially impair the intent and the purpose of the zone plan and zoning ordinance.

With respect to variances requested for the development of affordable housing pursuant to this subsection, a municipality that has been deemed inclusionary pursuant to section 20 of P.L. , c. (C. ) (pending before the Legislature as this bill), shall not be required to review those variance requests under inherently beneficial use tests, and a denial of a variance under such circumstances shall be presumptively valid.

e. In respect to any airport safety zones delineated under the "Air Safety and Zoning Act of 1983," P.L.1983, c.260 (C.6:1-80 et seq.), no variance or other relief may be granted under the terms of this section, permitting the creation or establishment of a nonconforming use which would be prohibited under standards promulgated pursuant to that act, except upon issuance of a permit by the Commissioner of Transportation. An application under this section may be referred to any appropriate person or agency for its report; provided that such reference shall not extend the period of time within which the zoning board of adjustment shall act.
