

APPENDIX A.

Note to title "Townships," Chap. 1, sec. 2, page 1021.

The boundaries of several of the ancient townships in the state are not to be found in any statute. Provision was made, at a very early day, by the proprietors (see Leaming and Spicer 382) for the appointment of commissioners to "set out fit places for towns, and to limit the boundaries thereof," in *West Jersey*. In 1692, an act was passed (see Leaming and Spicer 320) for dividing each county in *East Jersey* into "townships, tribes, or divisions," by certain bounds and limits, the returns to be recorded in the public records of the province. On the 28th November, 1760, (see Allinson 227) an act was passed for "running and marking the lines between the several counties and townships of the colony," which authorized the boards of justices and freeholders to appoint persons to run township lines, record the same in the clerks' offices of their respective counties, and file the surveys in the secretary's office of the division to which the respective counties belonged. This act was repealed, and supplied by "An act making provision for ascertaining the boundaries of counties and townships," passed March 5, 1798.—See *ante* 177. By virtue of these provisions, many of the townships were first run out, and their boundaries are only to be found in the records of the offices where they were directed to be recorded. For the boundaries of townships established or altered by statute, see the following references :
