2. That the said state board shall take cognizance of all matters affecting health and life among the citizens of this state, shall make sanitary investigations and inquiries in respect of the people, the causes of diseases and especially of epidemics and the sources of mortality, and the effects of localities, employments, conditions and circumstances on the public health; they shall also make investigations and inquiries into the sanitary condition of any state, county, city or township almshouse, asylum, prison, penitentiary, jail, reform school, school-house or other public building, and of tenements, manufactories and workshops; the said state board shall also constitute a state bureau of vital statistics who shall, as such board, cause to be made such tabular classification, and such index and transcription of the vital facts shown by the certificates of marriages, births and deaths now by law returned to the secretary of state, as may be useful to the said board or to the officers thereof in preparing for diffusion among the people of the state such facts as may bear upon public health; the said board shall fix and determine the amounts to be paid for the certification, index and transcription above required, which amounts shall not exceed the sum of four cents for each certificate returned to the secretary of state, and shall be paid out of the annual appropriations made to said state board as hereinafter provided.

5. That the said state board may appoint inspectors and assign them to such duties as the interests of the public health in any part of the state may require, and to aid in the execution of the laws relating thereto; and they may require the said inspectors to investigate the local epidemics, nuisances, needs for drainage, neglect of sanitary law, the condition of school-houses, tenements, manufactories and workshops, of public buildings belonging to the state, or to any county or city therein, and of the persons confined or employed therein; and the state board, its agents and appointees shall have the same right of inspection in regard to all matters affecting the public health as has been or may be conferred upon local boards of health; the inspectors appointed by the state board of health shall be paid by the board out of the moneys appropriated therefor such sum as may be fixed and determined by the board.

9. That there shall be a local board of health in every city, town and other local municipal government in this state, which shall be composed of not less than five nor more than seven members, who shall be appointed in such manner and hold their respective offices for such terms, not exceeding four years, as the board of aldermen, common council or other governing body may by ordinance provide; provided, however, that in cities containing a population of over one hundred thousand inhabitants such boards may consist of not less than five nor more than nine members; the terms of office of the members of said local boards shall be so arranged that the terms of not more than three members shall expire in any one year; if any vacancy shall occur in any of said local boards, it shall be filled in the same manner in which the original appointments were made, but for the unexpired term only. (a)

10. That there shall be a local board of health in every township of this state, which shall be composed of the members of the township committee, the township assessor and one physician to be appointed by the township committee; such physician shall hold office for the term of three years from the time of his appointment and until his successor shall be appointed; if any township committee shall not appoint a physician as aforesaid on or before the first day of June, eighteen hundred and eighty-seven, or if they shall neglect or fail to make such appointment within ten days after the death, removal or resignation of any physician, or after the expiration of his term of three years aforesaid, it shall be lawful, in any of said cases, for the state board of health, at any time after the expiration of either of the periods above limited for appointment by the township committee, and before the township committee shall have made an appointment, to appoint a physician as a member of said local board of health who shall hold his office for the term of three years from the time of his appointment by said state board and until his successor shall be appointed; if, however, in any township, no physician shall be appointed, as hereinabove required, either by the township committee or by the state board of health, then and in such case the members of the township committee and the assessor shall constitute the local board of health of such township, and shall continue to constitute such board, until such appointment as aforesaid shall be made; in case of the death, removal or resignation of any assessor before the time of electing his successor, the township clerk shall succeed such assessor as a member of such local board, and shall continue as such member until an assessor shall be duly elected or appointed, and such township clerk shall take charge of and make all returns of marriages, births and deaths as required by law of assessors; in any township within whose limits a city, borough, town or other form of local municipal government now exists, or hereafter shall exist, the jurisdiction of the local board of health shall extend only to such parts of the township as are, or shall be, outside of the territorial limits of such city, borough, town or other local municipal government, but in every other case the jurisdiction of the township board shall be co-extensive with the limits of the township. (b)

(a) The establishment by the legislature of general and local boards of health is not to be regarded as detracting from the general powers of municipal governments, unless that legislative intent clearly appears. Showman v. Lowry, 26 Vt. 291.

(b) The requirement that there shall be a board of health in every township, and an examination of the law indicates that their duties cannot be discharged without the expenditure of money, it is therefore the duty of a town meeting to raise funds to meet such expenditure. Allen v. Township of Bernards, 26 Vt. 399.

That any such board of health may prescribe a penalty for the violation of any of their ordinances or sections of any code they make and ordain as aforesaid, not to exceed one hundred dollars and not less than ten dollars; and every district court in any city, and every justice of the peace in any county, and any police justice or recorder in any city, is hereby empowered, on oath or affirmation made according to the law that any person or persons has or may have violated any section of the code, or any of the ordinances of any such board as aforesaid, to issue process at the suit of any such board as aforesaid, either in the nature of a summons or warrant, against the person or persons so charged, which process shall, when in the nature of a warrant, be returnable forthwith, and when in the nature of a summons shall be returnable in not less than ten nor more than ten entire days; such process shall state what section of the code or ordinance of any such board is alleged to have been violated by the defendant or defendants; and on the return of such process, or at any time to which the trial shall have been adjourned, the said court, justice of the peace, police justice or recorder shall proceed to hear the testimony and to determine and give judgment in the matter, without the filing of any pleadings, and a copy of the ordinance or section of the code alleged to have been violated, certified to under the hand of the clerk or president of the board, and under the seal of such board, if it have a seal, shall be taken as full and legal proof of the existence of such ordinance or code, and that all requirements of law in relation to the ordaining, publishing and making of the same, so as to make the same legal and binding, have been complied with, unless the contrary be shown; and the said court, justice of the peace, police justice or recorder shall, if judgment be rendered for the plaintiff, forthwith issue execution against the goods and chattels and per-

19. That no district court of any city, justice of the peace, police justice or recorder, shall have jurisdiction of any offenses against any code or ordinances of any board of health, which offenses shall take place outside of the territorial jurisdiction of such district court, justice of the peace, police justice or recorder, as such territorial jurisdiction is now or may hereafter be established by law.

20. That the officers to serve and execute any process issued out of any court under this act shall be the officers authorized by law to serve and execute process in said courts and before such magistrates and officers as aforesaid, including constables and police officers.

21. That the board of health of any township, or any city, borough, town or other local municipal government in this state, shall have the right to declare any epidemic or cause of ill health to be so injurious or hazardous as to make it necessary to close any or all of the public or private schools in the limits of such township, or of such city, borough, town or other local municipal government; but in case of public schools, the same shall not be closed except by the direction of the board of education, school trustees or other body having the control or direction thereof; any such board of education, school trustees or other body having control of public schools may in such case cause any or all of the schools under their control to be closed, if, in their judgment, such closing be necessary for sanitary purposes.

22. That any board of education, school trustees or other body having control of the public schools may, on account of the prevalence of any contagious disease, or to prevent the spread of such contagious disease, prohibit the attendance of any teacher or scholar upon any school under their control, and may specify the time during which such teacher or scholar shall remain away from such school, and may prohibit the attendance of any unvaccinated child who has not had the small-pox, and shall also have the power to decide how far re-vaccination shall be required if a case or cases of small-pox have occurred in the city or district.

*(a)* The common pleas has no jurisdiction to hear an appeal from the judgment of a police justice in a suit for a penalty for violating an ordinance of a board of health. *Meadow v. Meadow*, 51 Me. 83. This decision was rendered upon section 23 of the health act of 1866, which section is in the same words as section 18. See also, *Worden v. Board of Health*, 18 N. J. 2d 568.
24. That the power herein given to local boards of health to abate nuisances, sources of foulness, or causes of sickness, hazardous to the public health, shall not depend upon whether such boards have exercised their power to pass, alter or amend ordinances in relation to the public health.

25. That such local boards shall have power to specify any contagious disease or diseases in case of death from which no public funeral shall be had, and to prohibit such public funeral under a penalty to be imposed, not to exceed fifty dollars, and in case of the threatening or prevalence of an epidemic, to prohibit such public funeral of persons dying with the particular disease or diseases then prevalent; and they shall also have power to prohibit such public funeral in any case in which the attending physician shall by writing so advise, or in any case in which two reputable physicians in the same district or municipality certify that they believe that the interests of the public health require such restriction.

26. That any such local board may determine whether or when it is necessary for a physician or other person in attendance on the sick to notify said board of the existence of contagious or infectious diseases; where such notification is required, the local board shall enter in a book kept for that purpose, subject only to the inspection of the board and its proper officers, the name of the physician making such notification, the date of the notice, the name and precise locality of the disease, and at the close of each six months such physicians shall be entitled to receive, on the certificate of the said board, from the disbursing officers of the said township or municipality the sum of twenty-five cents for each notification so given, unless such notification shall be found to have been erroneous.

27. That a notice of any inspector of any local board of health to abate any nuisance, or by the executive officer or other authorized member of said board, shall be taken as a notice from the board, and if the owner or person notified shall fail to abate the nuisance complained of, the said board may cause the same to be abated in a summary way, giving written directions to the inspector in relation thereto, and he shall proceed according to the directions so given.

28. That any such local board of health, instead of proceeding in a summary way to abate a nuisance hazardous to the public health, may file a bill in the court of chancery, in the name of the state, on the relation of such board of health, for an injunction to prohibit the continuance of such nuisance, and such actions shall proceed in the court of chancery according to the rules and practice in such cases on the relation of individuals, and cases of emergency shall have precedence over other litigation pending at the time in the courts of chancery, and may be heard on final hearing within such time and on such notice as the chancellor shall direct.

29. That in all cases in which it shall be ascertained by the court of chancery in such suits that such nuisance existed at the time of filing such bill, substantially as set forth in the same, the court shall have power to abate the same by an injunction or otherwise, according to the practice of the court, and may charge the costs of such suit upon the property whereon such nuisance is found, and enforce the same by sale of the said property, or any part thereof, on writ of fieri facias, or the said court may order the person or corporation which caused such nuisance or allowed the same to continue, to pay such costs, and enforce obedience to such order.

30. That in case no such nuisance shall be found to exist, costs shall not be awarded as of course against the board of health which caused such suit to be brought, but only in case it shall appear to the chancellor that no probable cause existed for bringing such suit.

31. That such local boards of health shall have power and authority to appoint such subordinate officers and agents to carry into effect the powers hereby conferred as they may deem necessary, to fix the term of such appointments and the compensation of such appointees; and in every city,

(c) A bill filed under sections 28 and 39, to abate a nuisance as dangerous to the public health, must show that the nuisance or practices complained of amount to, of itself, and without the aid of similar practices or situations (for which the defendants are not responsible), to a public as distinguished from a private nuisance, and one which would be indictable as such. A mere tendency to injury is not sufficient to constitute such a nuisance. State v. Freeholders of Bergen, 1 Dick. 172. See Trenton Board of Health v. Hutchinson, 12 N.J.L. 255, 276.

33. That such local boards of health shall take cognizance of any neglect or failure to make return on the part of any person charged with this duty, under the laws of this state, and such boards are authorized to pass ordinances in relation thereto, and prescribe penalties therefor, and to enforce the same in any lawful manner.

35. That the local board of health of each township in this state may expend annually the sum of one hundred dollars in the care of the public health, and in addition thereto fifty dollars for each one thousand of the inhabitants thereof over two thousand, as returned by the last preceding census, if in its judgment such expenditure shall be required for the purpose, and itemized bills for such expenditure, having been approved by the president and secretary of such board, shall be paid by the usual disbursing officer of the township, and if in case of any emergency or of any special need for the protection of the public health such board shall consider the expenditure of a greater sum necessary, the board shall so certify to the township committee, and with their consent and approval may incur such additional expense as said committee may authorize, and if the funds at the disposal of the township committee are not sufficient to cover such expenditure, said committee is hereby authorized to borrow money for the purpose on the credit of the township, and is directed to place the amount in the next annual tax levy, and with the money so raised to pay the debts so incurred.

36. That the appointees, agents and officers of the said boards, except those merely temporary, shall hold their offices during the term for which they were severally appointed, and shall not be removed therefrom except for cause and after an opportunity has been given them for a hearing.

37. That the local board of health of every township, city, borough, town and other municipality, shall, on or before the first day of October in each year, in addition to other reports required, prepare an annual report of the condition of the public health within the limits of its jurisdiction, stating therein any special cause for the deterioration of health or of hazard thereto, and shall therein answer any inquiries which may have been addressed to such local board by the state board of health, and such local board shall forward a copy of such report to the state board of health on or before the fifteenth day of October in each year.

That the said commissioners shall file in the office of the clerk of the court by which they were appointed, their determination, signed by them, or by a majority of them if they do not all concur, and give notice of such filing to all whom it may concern, by publishing such notice at least two times in some newspaper published at the county seat of the county in which such premises are situated; and if they be situated in more than one county, in a newspaper published at the county seat of each county; any party feeling aggrieved by such determination may appeal therefrom to the court in which the proceedings were commenced, by giving written notice of such appeal to said commissioners within twenty days after the last publication of such notice; the said court shall thereupon, on motion of either party, on at least ten days' notice to the appellant or appellants, proceed to hear said appeal in a summary manner and in accordance with the rules and practice of the court and to determine the same; if either or both parties desire that testimony be taken to be used on the hearing, such testimony may be taken orally, in open court, or in the form of depositions, as the court may direct.

181. Sec. 6. That if it shall be adjudged and determined by the said commissioners, or by the court in case of appeal, that for the benefit of the public health, such ditches, drains or channels for the free passage of water shall be opened, or that such pond, artificial reservoir, marsh, swamp, bog, meadow, low or wet lands should be drained, it shall be the duty of said commissioners (unless the same shall be done by the owners of the lands to be thereby affected to the satisfaction of said commissioners) to cause an accurate survey of the lands and premises in question to be made, and a map thereof to be made, showing all the lands and premises that are proposed to be drained, the number of acres in each separate tract included in the district to be drained, the names of the owners and occupants thereof, so far as can be ascertained, and the relative levels of each tract, and the width, depth and slope of side, shape and course of such ditch or ditches or other channels for the free passage of water, as they shall determine to be necessary for the drainage of the land and premises in question, and for the purposes of this act said commissioners are empowered to employ a competent civil engineer or surveyor, or to authorize such commissioner as may be a civil engineer or surveyor to act as such, and to enter upon any and all the lands mentioned in the petition or deemed necessary by such commissioners and survey the same, and take the levels thereof, and by themselves, their servants and agents, to do all things necessary for the construction and completion of all such ditches and channels for the passage of water, as they shall deem to be necessary for the complete drainage of said pond, artificial reservoir, marsh, swamp, bog, meadow or low or wet land.

182. Sec. 7. That the said commissioners shall, upon the completion of the work, cause such map, certified by them, to be filed in the office of the clerk of the court in which the proceedings are pending, which map, or a
duly-authenticated copy thereof, may be used in evidence in any suit or proceeding in this state.

183. Sec. 8. That the said commissioners shall be paid for their services three dollars each for each full day actually employed in their said duties; they shall keep an account of all their expenses and of all the costs and expenses incurred in draining said lands and premises, including all the costs and expenses incurred in any proceeding under this act or preliminary or incident thereto, and any land damages or awards as hereinafter provided; and in case it shall be necessary to raise funds for the construction of such ditches or drains or channels for the free passage of water or land damages or awards, before the assessment hereinafter provided for can be made and collected, the said commissioners are hereby empowered from time to time, with the approval of the court in which the proceedings are pending, to borrow so much money as may be necessary therefor, upon such evidence of indebtedness as they may deem proper, bearing interest at the rate of six per centum per annum, payable upon the completion of such assessment and collection, and the interest accruing thereon shall be assessed as the other expenses for said construction; such evidence of indebtedness shall not be issued for less than par and shall be receivable in payment of such assessments.

184. Sec. 9. That the said commissioners shall have power to construct such drain or drains, ditch or ditches or other channels for the free passage of water, in accordance with the plans adopted, through and across any road or street in the township or townships in which the district to be drained lies, or through and across which it may be necessary in order to carry out the proposed drainage, and also through any private lands as shown on the said map, in which latter case they shall award the owner or owners of such lands just compensation therefor and shall add the amount of such compensation to the cost of constructing such works; such compensation shall be awarded and notice thereof given to the owner personally, if he be known and a resident of the county in which the premises drained or any part of them are situate, and if not a resident of such county, then by mail, according to the best information that can be obtained as to his address, before commencing such work; and such award shall be final unless the said commissioners shall reconsider the same and make a new award, or such owner shall appeal, as provided in section twelve of this act, and such award shall bear interest at the rate of six per centum per annum from the date of making the same until paid; and in case any valuable water rights or privileges shall be injuriously affected or destroyed by such drainage, the said commissioners shall award the owner or owners thereof just compensation therefor and shall take the same proceedings in relation to such awards as in cases where land is taken.

185. Sec. 10. That in order to provide for the payment of the costs, damages and expenses of the work of any drainage undertaken under the provisions of this act, the said commissioners shall ascertain the whole amount of such costs, damages and expenses, and shall make a just and equitable assessment of the same upon the lands specially benefited by such improvement in proportion to the benefit received thereby, but not in any case exceeding the amount of such benefit; and in case the whole costs, damages and expenses shall exceed the amount of benefits to lands specially benefited thereby, such excess shall be assessed upon and raised by general taxation in the township or townships in which the drained district lies, to be assessed, levied and collected in the same manner as other taxes for township purposes are assessed, levied and collected; and in case the drained district lies in more than one township, the said commissioners shall apportion the amount to be raised by said townships to each township in proportion to the number of acres in each that are affected by the said drainage, as shown by the said map; and when the amounts assessed upon said township or townships shall have been levied and collected, they shall be paid over by the township collectors of the respective townships to the said commissioners for the purposes for which they were appointed under this.

...act; before proceeding to make such assessment the said commissioners shall give at least ten days' notice in a newspaper or newspapers, published in the county or counties in which the drained premises lie, that they will meet at a certain time and place to hear the views of all persons interested in the proposed assessment, at which time and place said commissioners shall meet and give full and reasonable opportunity to all persons interested to express their views, may adjourn from time to time, and shall thereupon proceed to make a just and equitable assessment of the costs and expenses of said improvement, including damages for land taken or used and for water rights or privileges injured or destroyed upon the lands specially benefited by such work, and upon the township or townships concerned, as hereinafter set forth, within ten days after making such assessment; and notice shall be sent through the post-office to each owner of lands so assessed, as nearly in each case as the name and address of the owner can be ascertained, and to the township committee of the township affected, stating the amount assessed against said land or against said township, as the case may be, and that said assessment will be open for inspection for the next fifteen days, and the said commissioners will then meet at a time and place in said notice specified, to hear objections and to revise and correct, and finally confirm said assessment; at which time and place the said commissioners shall meet and give all parties appearing before them an opportunity to be heard, and may adjourn from time to time, and may reconsider said assessment, and shall make any alteration therein that they may deem just; and thereupon they shall revise, correct and finally confirm said assessment, and within ten days thereafter shall file said assessment, together with a detailed statement of the costs, damages and expenses incident to the work as ascertained by them, in the office of the court in which the proceedings in relation to the drainage in question were begun, and shall give notice of such filing by publication once a week for four weeks in a newspaper or newspapers published in the county or counties where the drained premises lie; and the determination of said commissioners or a majority of them, shall be final and conclusive, unless an appeal be taken as provided by section twelve of this act; and the said commissioners shall retain in their possession a duplicate copy of said assessment, and it shall be their duty to collect the amounts assessed and disburse the same for the purpose of carrying on and completing the drainage in question.

186. Sec. 11. That from and after the filing of the said assessment in the office of the said clerk, the said assessment shall be and remain a first and paramount lien upon each lot of land or property assessed for the amount of such assessment, with interest thereon, and all costs and fees thereon, until the same shall be paid and satisfied, notwithstanding any devise, descent or alienation of such land, or any judgment, mortgage or incumbrance thereon, and notwithstanding any mistake in the name or names of the owner or owners thereof, or any omission to name the owner or owners thereof; and any assessment in which such mistake or omission occurs shall nevertheless be a valid and effectual lien as aforesaid upon the lands assessed; and if such assessment, with interest thereon, be not paid within six months from the time when the same is payable, then the land upon which the said assessment is a lien shall be sold by said commissioners to pay the same, with interest thereon from the time when the same became payable, and all fees, charges and expenses of collection and sale, in the same manner as land is authorized to be sold for unpaid taxes in the townships where said land lies.

187. Sec. 12. That any person or persons feeling aggrieved by the action of the commissioners in awarding compensation for lands or property taken or used, or for water rights or privileges injured or destroyed for the purposes of drainage, as contemplated by this act, or by the action of the commissioners in making the assessment pursuant to section ten of this act, or any township committee feeling aggrieved by reason of the action of said commissioners in the premises, may, within forty days after the publication of the notice of filing said assessment, appeal to the court in
which the proceedings were begun by serving a notice in writing upon one of the said commissioners and filing a copy of said notice, with an affidavit annexed, setting forth the service thereof, in the office of the clerk of said court; and the said court shall have full power to review the proceedings of said commissioners in the premises, and the same or any award or assessment or other action to confirm, alter, modify, set aside or reverse, in whole or in part, for errors either of fact or in law; and the said court shall have full power to hear and try the same in a summary way, and may summon a jury to determine any question of fact; and the said court may proceed in due course, according to the power of the court in other cases, and if the said court deem advisable, may refer back any assessment to said commissioners for them to make a new assessment under the direction of the court, and the determination of the said court shall be final and conclusive in the premises, and the said court or any judge thereof may, until such determination, stay all proceedings in the matter in reference to which the appeal may be taken, until such final determination. [See Sec. 192, post.]

188. Sec. 13. [Amended by Sec. 198, post.]

189. Sec. 14. That the time in which anything is required to be done in this act may be extended by the court to which the original petition was presented, for good reasons shown and on such terms and conditions as may be just, provided no rights are prejudiced thereby, and such extension may be granted after the time before limited has expired, and said court may make such other orders in the premises as they may deem just and reasonable according to law, and appoint a person to act as commissioner in place of any commissioner who shall die, resign or become otherwise disqualified to act.

(a)

2. That in all cases, where any heir or heirs-at-law is, are, or shall be liable to pay the debt of his, her or their ancestor, in regard of any lands, tenements or hereditaments, descending to him, her or them, and shall sell, alien, or make over the same, before any action brought, or process sued out against him, her or them, such heir and heirs-at-law shall be answerable for such debt, to the value of the said lands, tenements or hereditaments, so by him, her or them sold, aliened or made over; in which cases, all creditors shall be preferred, as in actions against executors and administrators; and further, such execution shall be taken out upon any judgment so obtained, against such heir or heirs, to the value of the said lands, tenements or hereditaments, as if the same were his, her or their own proper debt, but the lands, tenements and hereditaments, which were bona fide aliened before the action brought, shall not be liable to such execution. (b)

(a) An action of covenant will lie against heirs and devisees for the breach of a covenant against incumbrances contained in a conveyance of the ancestor. New Jersey Ins. Co. v. Medder, 39 N.J. Eq. 333. The heirs of a deceased heir having lands by descent, should be joined. St. Mary's Church v. Williams, 3 N.J. Eq. 301. An action at law may be brought against heirs and devisees under the statute, although the claim be not presented to the administrator, and there is sufficient personal property to pay the debt. Stone v. Todd, 26 N.J. Eq. 374. In a declaration under the statute against heirs and devisees it is not necessary to aver that the personal estate of the decedent is insufficient to pay the debts. Doolon v. Taylor, 26 N.J. Eq. 300. Where the personal estate and devisees of a deceased merely on a bond is adequate, equity will, of course, not interfere. Nixon v. Poindexter, 13 N.J. Eq. 474. In a suit on a bond against the heir-at-law, who has alienated the descenced lands before suit brought, the recovery will be only for the value of the lands in the condition in which they were at the time of the descent cast. In such a suit the improvements put on the land by the heir will not enter into the valuation of such land, nor will the heir be called on for the rents and profits, nor, on his side, can he claim for repairs. Jd. Under this act a creditor of a deceased debtor may recover in an action against his heir or devisee (1) if defendant pleads properly a special judgment requiring the debt to be made only out of lands descended or devised, and which have not been bona fide aliened before the commencement of the action, or (2) if defendant fails to plead, or pleads falsely or improperly a general judgment, as for the debt of the defendant, or (3) if it is made to appear in the manner prescribed that such lands have been so aliened before action brought, a like general judgment, but only for the value of the lands. Hudson v. Moore, 30 N.J. Eq. 410.
